Subject: National Grid – East Claydon replacement substation – Public consultation update

Good afternoon,

I hope you are well.

I would like to update you on our East Claydon project and our plans for consultation.

Consultation update

We need to carry out further work to evolve our substation design based on ongoing analysis of our customers' requirements. This means our public consultation, which was originally planned in June, will hopefully take place later this year and we will confirm details once we know more.

Please be assured our revised engagement approach will ensure that the plans we share with you and the community are as informative as possible. At this stage we do not anticipate a change to our customer connection dates.

Continued engagement

Further to our meeting held in March this year, we would like to hold a further briefing with local MPs, councillors, and parish councils this summer, ahead of the revised consultation. Please be assured we will be in touch with dates for this meeting in the coming weeks.

In the meantime, if you wish to speak to a member of the team, please contact our community relations team on **0800 049 9734** or at eastclaydon@nationalgrid.com.

Best wishes

Sarah Harris
East Claydon project team
